

■ *The Paradigm MilleniaOne™ is a game changer.*

Positioned as a “lifestyle” speaker, we think it sounds better than anything in that category.

The fact that it’s small, attractively designed and exceptionally well made, well...these are just more reasons to own this speaker system. It may even change your opinion of lifestyle speakers. It changed ours...

Couple it with the compact but ridiculously powerful MilleniaOne™ Subwoofer and you’re going to enjoy high performance in a small, smart package.

“I’m thrilled that at long last a speaker manufacturer decided to build a lifestyle system with all the care and quality it normally lavishes on its cost-is-no-object gear. After an hour, I was convinced that the Paradigm MilleniaOne™/MilleniaSub™ combo is one of the best lifestyle systems I’ve reviewed. And after 4 hours, I was convinced it’s one of the best speaker systems I’ve reviewed.”

**Paradigm MilleniaOne™**

**\$650 - pair / \$1625.00 - 5 speakers**

**Available in gloss white or gloss black**

*Paradigm MilleniaOne™*  
*Available in gloss black or gloss white*

“The wonderfully transparent midrange and the References’ ability to reach down to the lowest octaves with little noticeable distortion were amazing...”  
*Roger Kano, Soundstage Experience*

*MilleniaOne™*  
*Multiple Award Winner*

*The Paradigm MilleniaOne™ subwoofer is different. Radically different. Paradigm skillfully engineered a subwoofer that could produce bass from an aluminum enclosure not much bigger than an encyclopedia.*

Using a back-to-back bipolar dual-woofer design which is inherently vibration cancelling, Paradigm has created a subwoofer that will have you shaking your head in disbelief.

How can it produce that much deep bass? That's just not possible! Well it is, and can be wireless. Yes, wireless. With a retail of \$1,399.00, this is not an inexpensive sub, but it *is* exceptionally quick, powerful and with the low profile and the wireless capability. It's easy to hide, and yet still achieves mind-boggling subwoofer performance regardless of size.

Stop by and hear how big - small can be!

*Paradigm MilleniaOne™ Subwoofer / Available in charcoal gray or white*

Specs: Vibration cancelling dual driver design, using two 14" x 3" polymer cones with corrugated Santoprene® surrounds, 1" voice-coils, built-in Ultra-Class-D™ 300 watts RMS power amplifier with auto-on, soft clipping, thermal monitoring, sealed enclosure, built-in wireless receiver for wireless option, USB port for PBK equalization.
